

Building Unity: Chapter Meetings

Cincinnati Federation of Teachers
Association of Cincinnati Public School Office Personnel

As bargaining a new contract continues, CFT/ACPSOP staff have been attending chapter meetings at dozens of schools across the district. In the meetings, members get an update on negotiations and **help get their work site organized and unified** towards winning a contract that is good for students and fair for teachers and office personnel.

The meetings have also been a great opportunity for teachers and staff to listen to each other and find out what's going on in other parts of their own school. Chapter meetings are a good reminder that **union solidarity begins inside each school and spreads throughout the district.**

Ralph Jackson, CFT Director of Organization, has attended many of the chapter meetings. "The members are very busy and administrators call a lot of meetings. But these union chapter meetings have been great. The energy and enthusiasm of our members is truly remarkable and I have no doubt in the strength and unity of this union," Ralph says.

Union staff have been reaching out to every school to come out for a chapter meeting. If your school has not scheduled one recently, **please call the union office to help set one up.**

Schedule Your Next Chapter Meeting
